

YASH PATEL

FULL-STACK SOFTWARE ENGINEER

Montreal, QC, Canada | +1 (514) 229-5976 | yash1451999@gmail.com | LinkedIn | GitHub | Portfolio

SUMMARY

Full-Stack Software Engineer with 3+ years of experience building scalable web applications, distributed backend systems, and responsive frontend interfaces using React.js, Next.js, Node.js, TypeScript, PostgreSQL, Redis, and AWS. Experienced in designing end-to-end systems including REST/GraphQL APIs, event-driven architectures, and serverless cloud platforms. Strong focus on system design, performance optimization, API scalability, and production-grade UI/UX engineering.

TECHNICAL SKILLS

- **Languages:** TypeScript, JavaScript, Python, SQL, PHP
- **Frontend:** React.js, Next.js, HTML5, CSS3, Responsive UI, Component Architecture, SSR/SSG
- **Backend:** Node.js, Express.js, REST APIs, GraphQL, WebSocket, Microservices, Event-Driven Systems
- **Databases:** PostgreSQL, Redis, MySQL
- **Cloud & DevOps:** AWS Lambda, EC2, S3, CloudWatch, Docker, CI/CD, GitHub Actions
- **Core:** System Design, Distributed Systems, API Design, Performance Optimization, Full-Stack Architecture

EXPERIENCE

Full-Stack Developer (Production Systems)

L'Original.org

May 2026 – Present

Montreal, QC

- Build and maintain full-stack production applications using React, Next.js, and Node.js backend services.
- Design and implement serverless APIs and frontend interfaces for public-facing platforms.
- Improve system performance using caching strategies, SSR optimization, and API enhancements.
- Manage CI/CD pipelines using GitHub Actions and Vercel for automated deployment workflows.

Freelance Full-Stack Engineer (Contract)

Self-Employed

Oct 2024 – Nov 2025

Montreal, QC

- Designed and delivered full-stack applications using React, Node.js, and AWS Lambda microservices.
- Built AI-powered systems using OpenAI API and TypeScript, reducing manual workflow effort by 60%.
- Developed event-driven backend systems with real-time frontend dashboards and async processing pipelines.
- Implemented secure authentication systems including JWT, role-based access control, and rate limiting.

Software Engineering Student (Full-Time)

TAV College

Mar 2023 – Oct 2024

Montreal, QC

- Studied full-stack development including frontend UI engineering, backend systems, and cloud architecture.
- Built multiple full-stack projects using React, Node.js, and REST APIs with database integration.

Node.js Backend Developer

JKSOL Infotech

Jul 2021 – Jul 2022

India

- Developed 12+ REST APIs and integrated frontend components for production applications.
- Improved database performance by 30% through query optimization and indexing strategies.
- Worked on full-stack features including UI integration, backend logic, and API design.

PHP Developer Intern

Differenz System

Dec 2020 – May 2021

India

- Built responsive frontend interfaces using HTML, CSS, and JavaScript for production systems.
- Optimized backend PHP and SQL queries improving overall application performance.

PROJECTS

AI Candidate Evaluation Platform <i>React.js, Node.js, TypeScript, OpenAI, PostgreSQL</i> – Built full-stack AI evaluation system with frontend dashboard and backend scoring engine. – Reduced recruiter workload by 60% through automated candidate assessment pipelines. – Designed multi-tenant architecture with secure authentication and isolated data layers.	2025
Event-Driven Workflow Automation Platform <i>AWS Lambda, Node.js, GraphQL, React.js</i> – Developed full-stack workflow automation platform with frontend UI and serverless backend. – Automated enterprise processes reducing operational costs by 40%. – Built real-time dashboards for monitoring async event-driven pipelines.	2024
Real-Time Multiplayer Game System <i>React.js, Node.js, WebSocket, Redis, PostgreSQL</i> – Built real-time full-stack multiplayer system with frontend UI and backend game engine. – Designed WebSocket-based architecture for live state synchronization and gameplay updates. – Implemented scalable session management, caching, and anti-cheat validation.	2022

EDUCATION

Bachelor of Information Technology <i>Uka Tarsadia University</i>	2017 – 2021 <i>India</i>
Diploma in Web & Software Development <i>TAV College</i>	2023 – 2024 <i>Montreal, QC</i>
